

Lake County Landscape Callery Pear Replacement Cost Share Program Application

Lake County
Soil and Water
Conservation District

2291 N. Main St., Crown Point, IN 46307
219-663-7042 // lakecoswcd@gmail.com

BASIC INFORMATION:

Name : _____ Date : _____

Phone No : _____ Email : _____

Mailing Address : _____

City : _____ ZIP Code : _____

Is your mailing address the same address where the tree is located? Circle one: Yes / No

If you answered "No" to the above question, please enter below the physical address where the tree is located.

Physical Address
for tree: _____

City : _____ ZIP Code : _____

PHOTOS - PART 1:

Please email the following photos to **lakecoswcd@gmail.com**.

- One photo of the tree to be removed, showing the whole tree – a "before" photo.
- One photo close up of the leaves with branch of the tree to be removed.
- One photo of the bark on the trunk of the tree to be removed.

ACKNOWLEDGEMENTS:

Please read the following 4 statements.

- Callery Pear trees can resprout vigorously from the roots even with stump grinding. To help prevent resprouts, we recommend treating the stump with herbicide within 30 minutes of the final cut to prevent resprouts before stump grinding. Your contractor may be able to do it or you can yourself. To achieve maximum effectiveness, we strongly suggest treating the stump with herbicide and waiting 2-3 weeks for it to take effect before grinding the stump. A guide on how to treat the stump with herbicide is offered by Hamilton Co. Invasives Partnership here - https://www.hamiltonswcd.org/uploads/3/7/2/3/37236909/callery_pear_stump_treatment__1_.pdf
- If your application is approved, work must be completed within 2 months of approval. If work is not completed within 2 months, reimbursement is forfeited.

ACKNOWLEDGEMENTS (CONTINUED):

- If your application is approved, you may use this list - <https://www.in.gov/dnr/forestry/files/Fo-NativeTreesofIndiana0606.pdf> - to select a preapproved native replacement tree. Contact our office 219-663-7042 to receive preapproval for any tree not on this list to confirm it is not invasive. If you purchase a tree not on the preapproved list and do not request preapproval of another tree prior to purchasing it, reimbursement is forfeited.
- If your application is approved, be sure to vet your contractor if you hire one, contact proper authorities to ensure you have permission to remove the tree, and contact 811 prior to any digging. Lake County Soil and Water Conservation District is not responsible for any injuries, damages, or fines you may receive.

SIGN AND SUBMIT:

By signing below, you agree you

- 1) have fully completed the application,
- 2) have read and understood all 4 acknowledgements above,
- 3) are allowing LCSWCD or its partners to contact you regarding this application, and
- 4) are emailing the completed application and requested **PART 1** photos together to **lakecoswcd@gmail.com**.

Sign here.

PART 1 LCSWCD Approval:

Date:

PART 2 (AFTER REMOVAL):

Date the tree was removed : _____ Initial : _____

Please email the following photos AND this updated application to **lakecoswcd@gmail.com**.
